

CollegeVibes Workflow

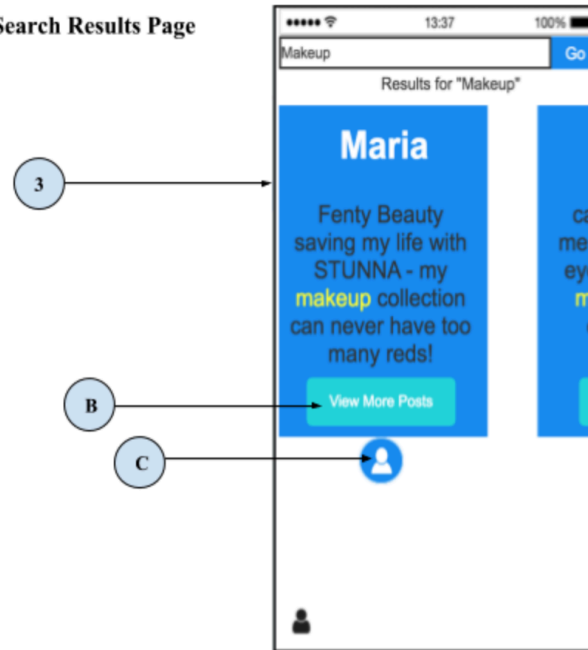

1. Search Page

2 When the user is on the Search Page of CollegeVibes, he/she will be able to search any keyword of interest. Once they have searched keyword of interest, anyone mentioning that specific keyword in a post of theirs will be displayed in the search results.

A Upon tapping this icon, the user is directed to their own profile.

2. Search Results Page

3 Once the user has searched his/her keyword in the search bar, in which our case the user's keyword was "makeup", a list of posts mentioning the "makeup" will come up where the user can scroll to the left to view more of these profiles mentioning the keyword.

B Upon tapping the "View More Posts" button, the user is able to view the most recent posts of that person's profile.

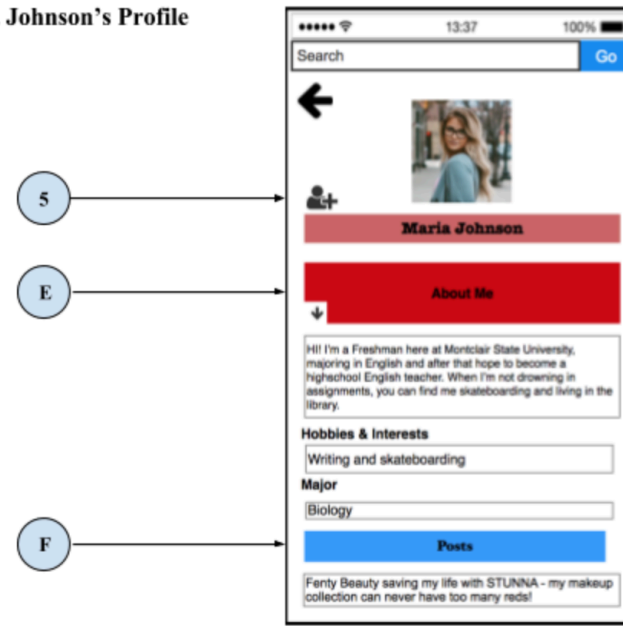

C Upon tapping this icon, the user will be directed to the profile of the person he/she might like to know more about.

3. View More Posts

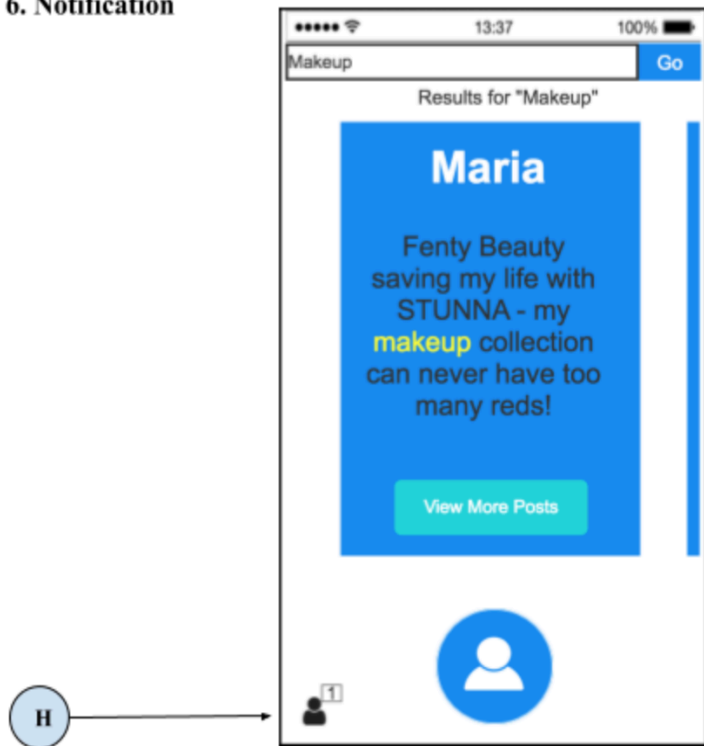

- 4 Once the user taps on the "View More Posts" button, the user is directed to the page with three of the most recent posts of that user. If they do not want to commence with getting to know more about the person, they can simply tap on "Go Back".
- D Upon tapping the blue profile icon, the user is able to view the profile of the person they might want to get to know more about.

4. Maria Johnson's Profile

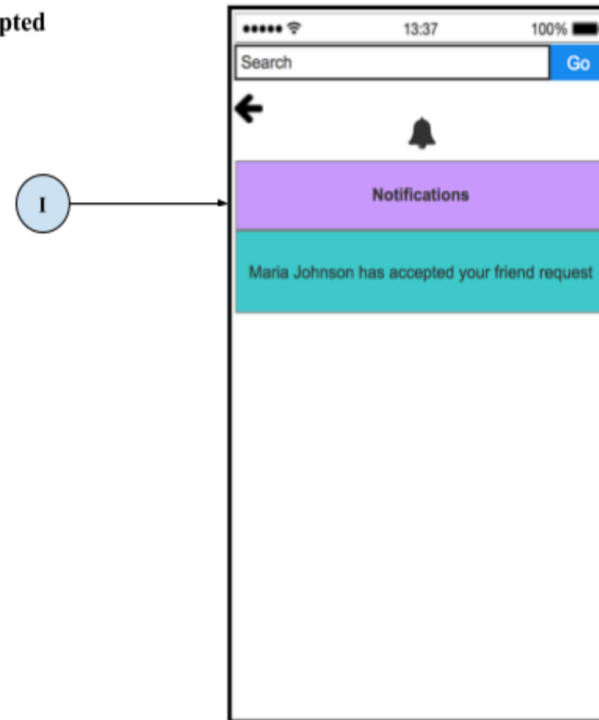

- 5 Upon tapping this blue profile icon, in which our case happens to be that of Maria Johnson's profile, the user can add Maria as a friend and will await her response to either be accepted or simply not get a response.
- E Upon tapping downward arrow on the "About Me" tab, the user is able to view a short bio of that profile, Hobbies and Interests, as well as Major.
- F If the user would like to see more posts the person made, then upon tapping the "Posts" tab the user will be able to view more posts.

6. Notification

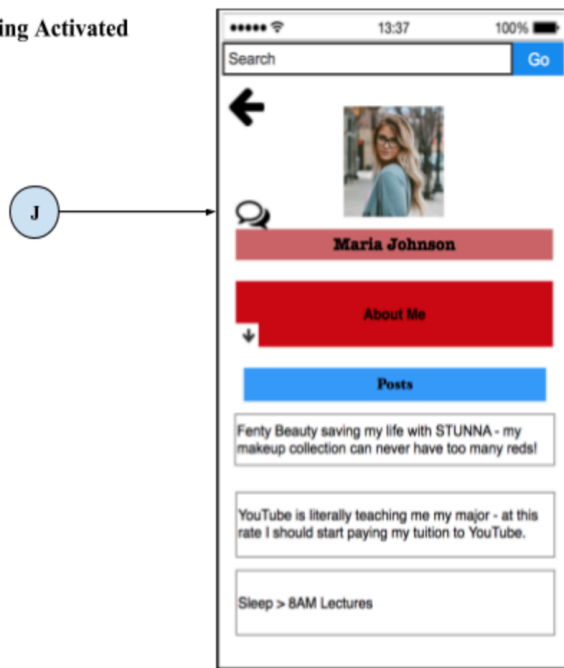

- H** Once Maria accepts the request, the user receives the notification displayed on her profile icon, via "1".

7. Accepted

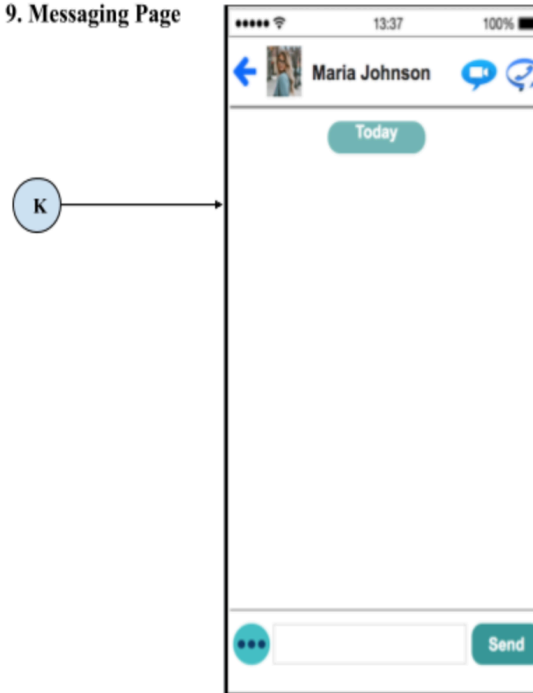

- I** Once the user clicks her profile icon, she is brought to her notifications page where she will be able to see any new activity on her account. In this case, Maria Johnson accepts the friend request sent earlier.

8. Messaging Activated

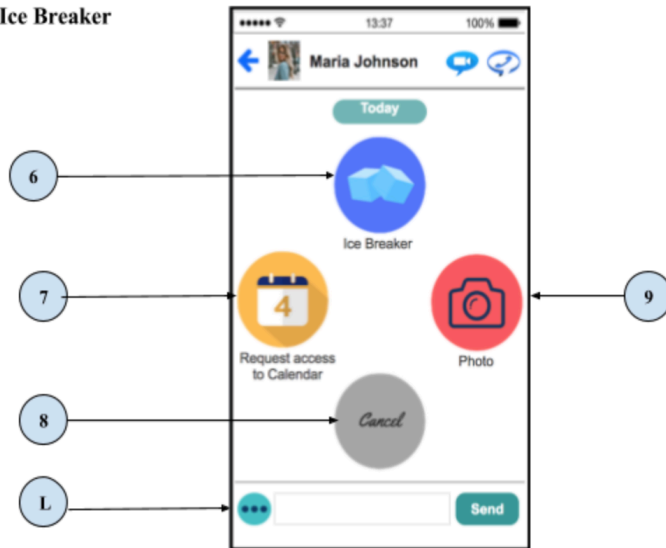

J Once the user is notified that Maria Johnson has accepted the friend request, the user can click the notification tab where she will be directed to Maria's profile. Once directed to Maria's profile, the user now has the ability to message Maria.

9. Messaging Page

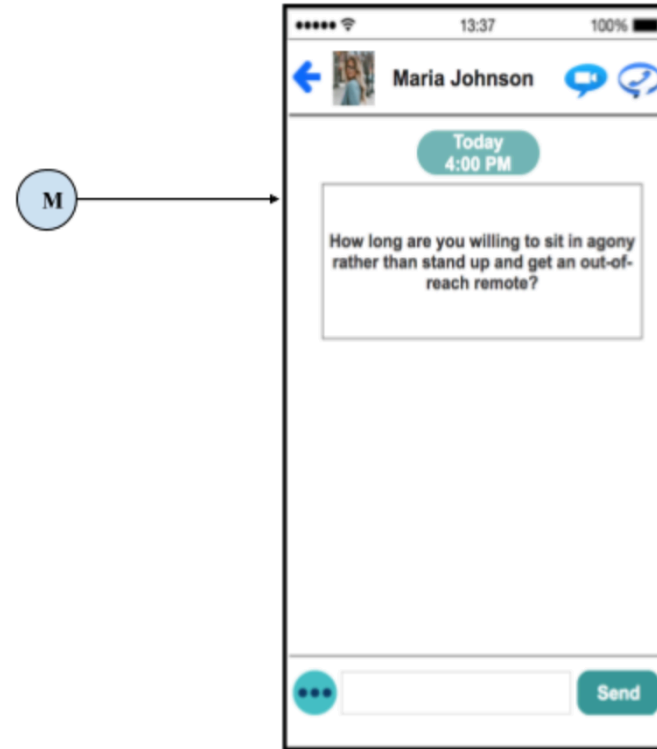

K The user is now led to the messaging page where she can easily message her, whether that might be to get to know more about Maria, common interests they share, etc.

10. Ice Breaker

- L** Upon tapping the button with three dots, four buttons will appear where the user is able to either tap "Ice Breaker", "Request Access to Calendar", "Photo", or "Cancel".
- 6** Upon tapping on "Ice Breaker", a randomly generated question will be prompted to both users to get a conversation started; this is aimed to make the first text being initiated seem less intimidating or daunting at times.
- 7** Upon tapping on "Request Access to Calendar", if the user sends this request he/she will await for an acceptance. Once accepted, the user will be able to view that person's Calendar which could include any free times in a day/week/month that person might have, class schedule, etc.
- 8** Upon tapping on "Cancel", this would simply return the user back to the messaging page with Maria.
- 9** Upon tapping on "Photo", the user will be able to send a photo.

11. Ice Breaker

- M** Once the user taps on "Ice Breaker" to initiate a conversation, a randomly generated question is prompted to both users.
